PHYSIOPLUS - COADSYS STUDENT GUIDE

You can access the system via coadsys.yeditepe.edu.tr address with your “@ std.yeditepe.edu.tr” e-mail address and password in the OBS system in my personal information field. If this information is not available, you can get support from faculty secretariat or institute student affairs. You can reach Physioplus interface by performing the steps specified in the manual. You can also request support from our academics and us.

Students

You are only allowed to use your student email account to log into Coadsys. In order to login you should click "Öğrenci Girişi" button on the website. If you don't remember your email account name or password you should contact your faculty secretary.

Academic Personnel

In order to login to Coadsys you should enter your Yeditepe email username (without @yeditepe.edu.tr) and password credentials in corresponded fields on the login panel.

Latest news - COVID-19 rehabilitation programme released

We are excited to launch our second programme of free courses related to COVID-19, this time focused on the ongoing rehabilitation needs related to this ongoing global pandemic. This is a period of unique challenges for our profession and hopefully, these courses will provide opportunities to learn, reflect and put into practice new approaches to providing care that will address the needs of our clients while taking into account the limitations and pressures imposed by life under lockdown and social distancing.
